DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 1-5 in the reply filed on December 28, 2005 is acknowledged. Regarding the restriction between groups I and II, the traversal is persuasive, thus claims 6-10 (group II) is being examined with the elected claims 1-5 (group I). With regard to the restriction between group I and III invention. Applicant failed to specifically point out the supposed errors of the restriction requirement. Mere allegation of no burden is inadequate. Therefore, the traversal is not found persuasive. Applicant's request for rejoining of process claims to product claims once the product claims are found allowable is hereby acknowledged and will be considered accordingly.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by the Wenzhi patent (US 5,589,069).

Claims 1-2: The Wenzhi patent teaches porous silica gel (particulate form) having surface covered with a zwitterionic layer. See col. 6, lines 24-42. The coating layer is formed by alkyl-group (col. 6, lines 38-45), thus the surface bonding is formed by a covalent bond.

Claims 3-5: See col. 6, lines 46-65.

Claims 6-10: See rejection to claims 1-5 above and col. 2, lines 10-30.

4. References are cited as art of interest.
